kneller gardens

mereway nature park

the outdoor classroom

introduction

These teaching resources have been designed for primary school classes to use in outdoor green spaces. Lesson plans and ideas are provided for use in most parts of the curriculum at key stage 1 and key stage 2 levels.

The resources were originally designed for use in Mereway Nature Park and Kneller Gardens, two adjacent sites in the lower Crane valley of Twickenham, west London. They were subsequently adapted for use in Crane Park, Twickenham and Hanworth where an outdoor classroom has been developed as part of the project.

We hope that the resources will also be adapted by teachers for use on other outdoor sites in the Crane Valley and elsewhere.

This package has been put together by Friends of the River Crane Environment (FORCE), with the support of the London Borough of Richmond upon Thames, The London Borough of Hounslow and the GLA Help a London Park project.
