

# the outdoor classroom

## the river

name:

**Look at the river and draw a picture of what you can see.**

**Mark the following things in your picture:**

- river channel
- name of the river
- river banks
- tributary
- weir
- bridge

**Draw in any evidence of these features:**

- pollution

**Draw an arrow to show the direction that the river flows towards the River Thames and the sea.**

**You could also include information about what animals you can see, and plants and trees growing in the river, on the river banks and away from the river.**
