## the outdoor classroom length

name:

## Measure the following items:

Don't forget to include your unit of measurement.

leaf blade of grass table

What measurements would you use for the following items? Choose from kilometres, metres, centimetres or millimetres.

a leaf
caterpillar
blade of grass
table
railway
tree
lamp post
road
ladybird
seed

Put them in the correct box.

Can you add anything else that you find?

| Kilometres | Metres | Centimetres | Millimetres |
|------------|--------|-------------|-------------|
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
|            |        |             |             |
